night's sleep on the plane to fool my body into thinking it's more or less on Cairo time when we arrive. What do you suggest?

This means you'll get less GPS track points, as it works in a 15-20 seconds of GPS on-time, then about 45 seconds of GPS off-time pattern. (Unreliable estimate.) As with research studies in general, women comprised a relatively small percentage.

Most antimalarials used for home treatment were bought from pharmacies (54) or small shops (29); 9 were obtained from health facilities at an earlier visit for another illness.
