bordry called the results "quite worrisome," but said french athletes with "abnormal results" would not be sanctioned as this is the first time the afld has conducted hair tests.

that the questions are specific and explicit about what information is being reviewed this is the job

works by pilot programs and trial and error; why? because their assumptions are never met, so most

greece would be forced to introduce its own medium of exchange, like a new drachma, or use the euro as its
